# ABOUT PARITY GLOBAL

Parity Global provides full-spectrum satellite ground station systems engineering, Antenna Installation & Integration, System Level RF Verification Testing & Commissioning, and Antenna Control Systems Subject Matter Expertise. We've provided these specialized services in over 60 countries and 7 continents since 2000.

We are a multi-disciplined field service collaboration, comprised of USA & UK-based field engineers, available to deploy to any location on the planet.

Parity Global is also an Authorized Distributor, Channel Partner, and Integrator of Radeus Labs Antenna Control Systems Products with over \$1 Million Dollars (USD) in sales of the Radeus Labs Antenna Control System product line in the past year alone.

# VISION AND MISSION

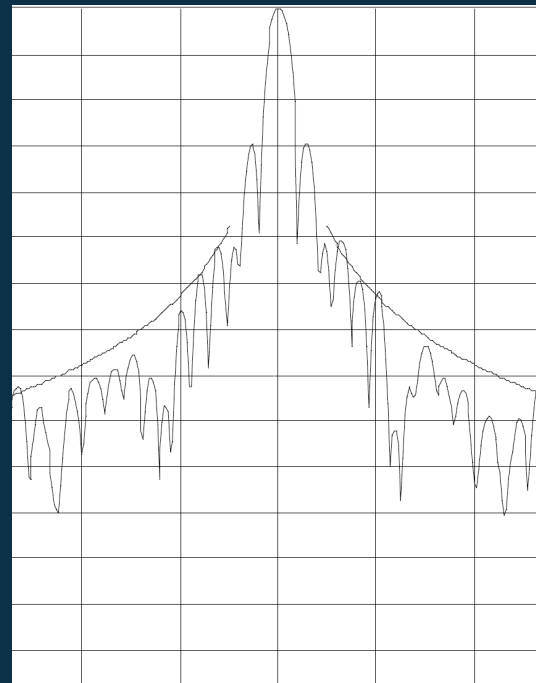

## VISION

- To become Essential to the Global Satellite Communications Earth Station Teleport, Network Broadcast, and intelligence community by offering both theoretical and practical Subject Matter Expertise & Field Services that will inspire confidence, reliability, and foster lasting business relationships that continue to fuel the pathway for growth and success.

## MISSION

- Accelerate efficiency in International Field Service Support, Implementation, and deployment through demonstrated systems and industry experience.
- Demonstrate the value of the Radeus Labs ACS product line offered, and ultimately convert each outdated Antenna Control System that we encounter to these state of the art systems, allowing for ease of use, customer confidence, and next level performance & efficiency for Teleports around the globe.

# PARITY SERVICES

- Domestic & International Field Support Services
- Earth Station Antenna Electro-Mechanical Installation & Integration
- Critical Alignments Expertise in Reflector Optical Alignments, Encoder Alignments, and Pedestal Verticality alignments
- RF Optimization & Commissioning at the Antenna Level
- RF Alignment & Commissioning at the Systems Level
- Antenna Control System Subject Matter Expertise, Installation, Integration, and Optimization
- Radeus Labs Antenna Control Systems Sales, Installation, Integration, and Commissioning
- Program Engineering, Program Management, Customer Representation (FAT, SAT, DR)

# PARITY GLOBAL DIRECTOR'S MESSAGE

**WILLIAM B. DIORIO**  
MANAGING DIRECTOR

Applications Engineer | RF Test Engineer | ACS SME

Parity Global was founded on two core principles: Trust and Integrity. These values drive the operation, as there is no future for an international business such as ours without these two critical components.

Our long-term customer relationships are strong, and Parity spans continent & culture to ensure that we continue to nurture the existing bonds between us and our customers, as we foster new customer relationships at every turn.

Our technical expertise and diverse world-class versatility is routinely demonstrated across all disciplines of the services that we provide.

We are an extremely dynamic Field Service organization, with a broad international presence.

I welcome you to reach out to me personally should you wish to discuss Parity Global's capabilities, and how we can help you achieve your goals.

# THE PARITY ADVANTAGE

From our highly experienced Technicians & Field Engineers to the Project Implementation team, all disciplines fall under the Parity Global blanket.

What we offer is simple: A Unified Field Service Solution for all areas of SATCOM ground station implementation, Installation & Integration, Maintenance, and both RF & ACS Performance Optimization.

Our logical, common sense approach employed in our day to day operations isn't something that an organization is simply born with.

Ours is the result of 20+ years of experience and applied lessons learned resulting in an dynamic & pragmatic approach to our field operations. The result is high-efficiency output that only Parity Global can offer.

# PAST CLIENTS

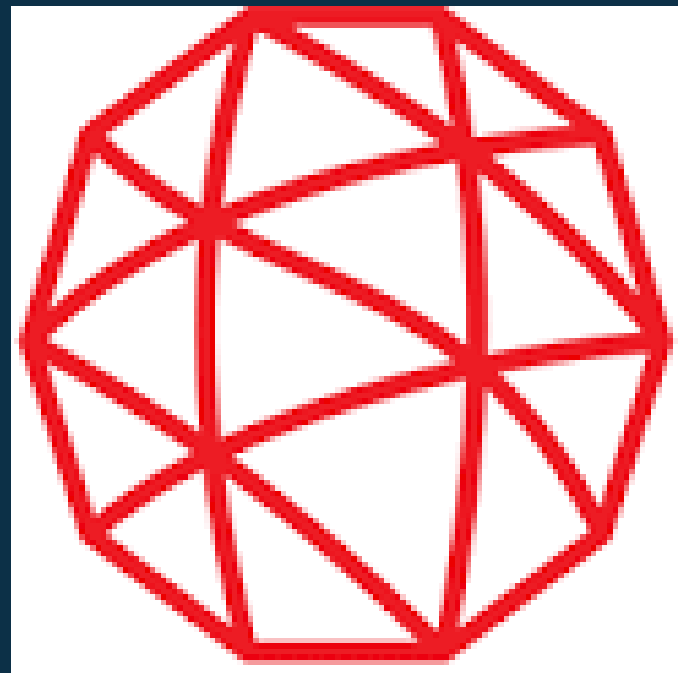

## RAYTHEON

Earth Station Antenna Control System Upgrades: Survey, Procurement, Project Management, Delivery, Installation, Integration, Commissioning

## DOD

ACS Sales, Service, Installation, Integration, and multiple Earth Station Antenna ACS Retrofits. Multi-station Preventive Maintenance Programs, Subject Matter Experts for Pacific Rim, and USA Stations.

## L3HARRIS

MET Program RF Integration & Test, Site Implementation Management, Terminal Installation Support, FAT, OSAT

## COMSAT

Multiple ACS Sales, Project Management, Retrofit Installation, Integration.

# IN CLOSING

Without question, Satellite Communications is the nucleus of global connectivity & communications.

Parity Global has been honored & privileged to be at the forefront of the Satellite Communications Earth Station Infrastructure, Control & Field Support Industry across most every continent on this planet, earning the trust and mutual respect of our cherished clients.

We'd very much like to speak with you about how Parity Global can compliment your operational capabilities & offered services expansion while helping to reduce costs, and inspire confidence in capital asset reliability.

Regardless of your geographic location, Parity Global has you covered.
